01. PROFILE

Senior creative and multimedia designer with 13+ years of in-house and freelance experience across brand, print, packaging, digital and video. Freelance since November 2025 on confidential client projects, following four years as Lead Creative Designer at a technology company, owning creative direction across every channel; before that, eight years as the creative designer for Busy Bees, delivering campaigns across 350+ nurseries in the UK and Europe.

A rare all-rounder: I design the campaign, then shoot, edit and grade the photography and video myself with my own professional kit. Commercially minded from running my own manufacturing business, and used to managing freelancers, printers and suppliers to deliver on time and on brand.

02. CORE SKILLS

DESIGN	Adobe Creative Cloud (Photoshop, Illustrator, InDesign), branding, art direction, print, packaging, labels
VIDEO & MOTION	Premiere Pro, After Effects, DaVinci Resolve; scripting, storyboarding, filming, editing, colour grading
PHOTOGRAPHY	Product, people and location shoots; lighting and audio setup; retouching and post-production
DIGITAL	Web and UX/UI design (wireframes, prototypes, user flows), social content, HTML email (Mailchimp, HTML/CSS)
AI TOOLS	Generative AI for concepting, image and asset production, and speeding up workflows
DELIVERY	Project management (Agile, Jira, Trello), supplier and freelancer management, stakeholder presentations

03. EXPERIENCE

Freelance Creative & Multimedia Designer

NOV 2025 – PRESENT

Self-employed

- Delivering design, photography and video for clients on confidential projects under NDA.
- Running projects end to end; samples can be discussed at interview where agreements permit.

Lead Creative Designer

JUL 2021 – NOV 2025

Dove Technology // Technology / software company

- Led creative direction across print, digital, web, video and social, keeping the brand consistent across every channel.
- Planned, shot and edited photography and video for product marketing, campaigns, social and web.
- Designed print collateral, product labels and packaging from concept to production.
- Briefed and managed freelance photographers, copywriters and print suppliers on quality, cost and deadlines.
- Redesigned production workflows, cutting delivery times by around 20% without compromising quality.
- **Key project.** Website redesign: led the design of the new company website; post-launch bounce rate fell by roughly 25% and user engagement rose by around 40%.

Creative Designer

JAN 2013 – JUL 2021

Busy Bees Nurseries // 350+ nurseries across the UK and Europe

- Core creative for a national brand: brand assets, print, digital, social, video and photography for 350+ nurseries across the UK and Europe.
- Led end-to-end video production (scripting, filming, editing, publishing), including filmed social ads, and ran professional photo shoots.
- Produced websites, social, online ads, brochures, reports and signage.
- **Key project.** Lockdown awards show: conceived, produced and edited the company's online awards show during lockdown, from concept and footage to graphics and final edit.
- **Key project.** National campaign: created the full multi-channel campaign (print, digital, social and video) rolled out across the nursery group.

Owner & Operator

2012 – 2014

Minerva CNC // CNC manufacturing, run alongside Busy Bees

- Owned and ran a CNC manufacturing business, handling clients, quoting, production and delivery, and created its branding and marketing.

04. EDUCATION

BA (Hons) Graphic Design, University of Salford — 2009 – 2012
