SELECTED WORK

Hello.

Creative Designer with more than a decade of experience delivering design across digital, print and multimedia. Freelance since 2025, based in Cannock, Staffordshire. Previously Lead Creative Designer at Dove Technology (2021 to 2025) and Creative Designer at Busy Bees for eight years. BA (Hons) Graphic Design, University of Salford.

A selection of editorial, branding, poster, social, web, video and app work. The Dove website redesign reduced bounce rate by 25% and increased engagement by 40%.

10 Branding Concepts

07 · APP · 2026

Vault Capture

Vault Capture is an Android app I designed and built to feed my Obsidian notes: quickly add tasks, tick them off, and save links to read later straight from the phone's share sheet. I designed the interface and identity first as a mockup, then built it in Jetpack Compose. The logo is a faceted gem, a nod to the obsidian it feeds.

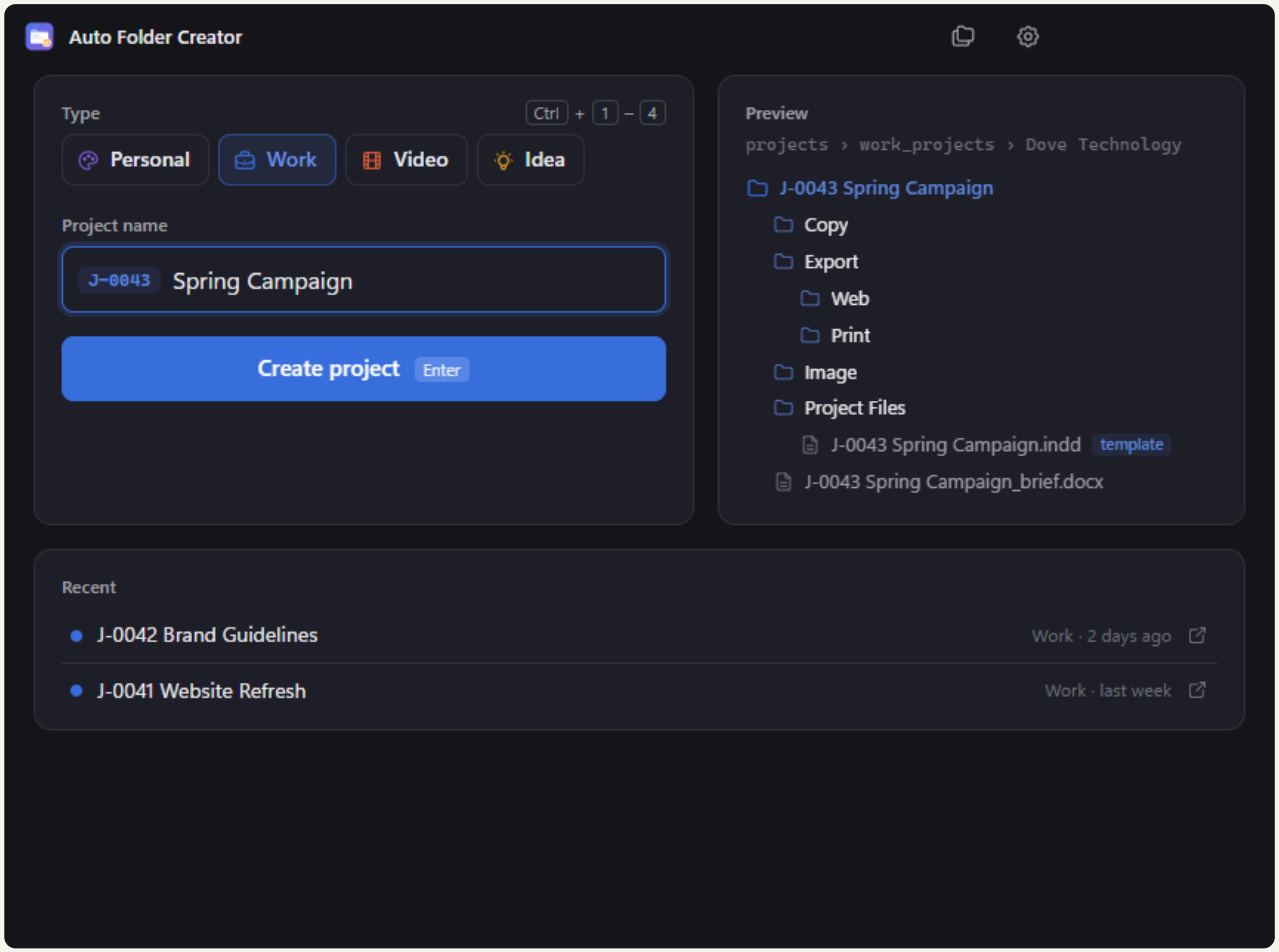

08 · DESKTOP APP · 2026

Auto Folder Creator

A Windows desktop app I designed and built from an old Python script. Choose a project type, enter a name, and it creates the full folder structure, a Word brief and any template files, with a shared job number like J-0043. It also tidies up existing projects without moving a single file. I designed the logo, light and dark themes, and the settings and organise screens.

01 · EDITORIAL · 2012

Valour Magazine

Valour is a concept men's lifestyle magazine covering grooming, style and everyday know-how. The identity is a bold cut-out “V” placed over the cover model's face, carried through a cover poster, a screen-printed version and full editorial spreads on whisky, shaving, wardrobe and coffee.

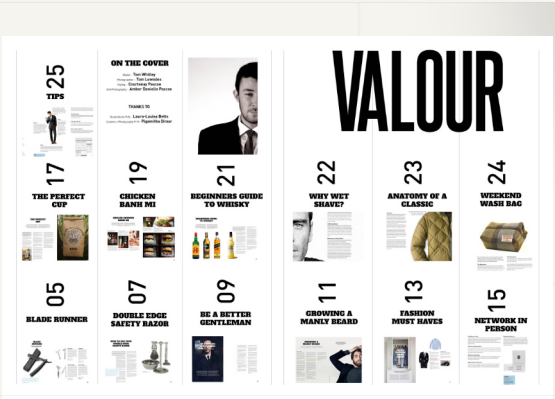

Contents and feature spreads: grooming, style and lifestyle.

Valour Magazine

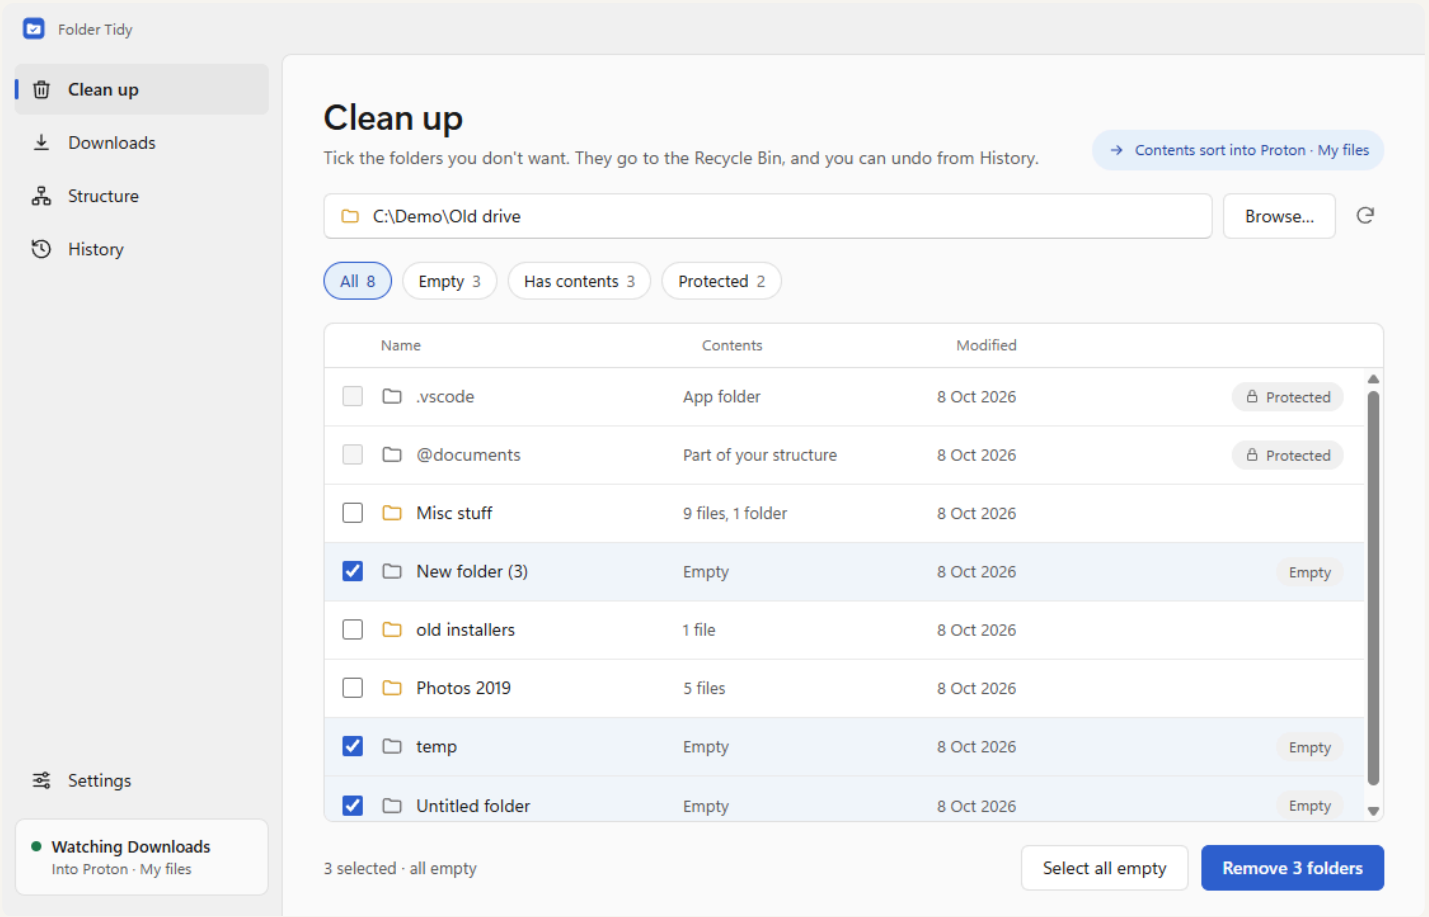

09 · DESKTOP APP · 2026

Folder Tidy

A Windows app for keeping folders in order. Clean up lets you tick the folders you don't want: empty ones come pre-ticked, folders with contents ask where things should go, and removals go to the Recycle Bin. It also watches the Downloads folder and moves finished downloads into the right place, and every action can be undone for 30 days. Protected folders are never touched. Built with Electron and Node.js, with light and dark themes.

Metro–V 15

The Metro-V is a welded, stainless steel premium quality flag aimed at complementing the Metropole on high profile routes.

The flag is fixed directly to the EX-O post. The fixings are hidden by top and bottom plates that finish off the flag neatly.

The Metro-V sizing equates to 75% of the Metropole equivalent. The smallest stock size is 580mm, rising in 75mm increments as route numbers expand.

Metro-V

Description	Overall L	Overall W	Graphic Sizes L	Graphic Sizes W	To fit EX-O System	To fit VX-O System (and Elite/Slimline)
Metro-V 580	595	310	580	300	EXO-FLMV-001	VXO-FLMV-001
Metro-V 680	695	310	680	300	EXO-FLMV-002	VXO-FLMV-002
Metro-V 780	795	310	780	300	EXO-FLMV-003	VXO-FLMV-003
Metro-V 880	895	310	880	300	EXO-FLMV-004	VXO-FLMV-004

Linear Flat Flag 21

The Linear Flat Flag is a truly versatile design that can fit an integrated post or a banded post or column.

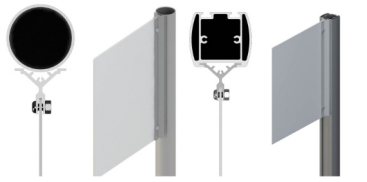

The design consists of a Y-shaped extrusion and a flat flag plate.

The Y extrusion fits direct to the wide post channel in the VX-O and via the universal bracket to the EX-O, as well as fitting other post systems.

The Linear extrusion can be permanently fixed to a post. The flag plate can be installed and removed without adjusting the Linear extrusion. This makes flag changes very quick and simple.

But the strength of the Linear assembly is that the same extrusion can also be banded to 76mm posts or lighting columns. This keeps stock costs low, increases flexibility and makes maintenance a breeze.

Stock sizes are listed below but the Linear is available in any cut length from 300mm up to 1200mm.

Linear Flat Flag (Y Bracket)

Description	Overall L	Overall W	Graphic Sizes L	Graphic Sizes W	To fit EX-O System (and Bisoft Posts)	To fit VX-O System (and Elite/Slimline)	To fit 76mm Post
Linear Flat 580	595	312	580	300	EXO-FLLF-001	VXO-FLLF-001	RND-FLLF-001

RXH297 27

The RXH297 is a hinged display case constructed from aluminium extrusion and fabricated for strength and durability.

The front door is secured at two points. Two locking options are available, with a choice of security screw or key-operated camlock both side-mounted

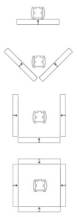

Media is secured in place with spring steel clips behind a polycarbonate screen that is easy to change.

The RXH297 can be made to almost any size required but is available as standard to display A4 landscape media.

Description	A4 Spaces / Requirement	Graphic Sizes Overall L	Graphic Sizes Overall W	Visible L	Visible W	Stock No.
